### Meet the Manager

"Hello, and welcome to 2, The Grove. I'm Sarah, the manager, and I have been working for MacIntyre for 15 years. Did you know, The Grove is on the original site where MacIntyre was first founded?"

We support people to live their lives the way they want to, in every day decisions, from food on the menu and how people want to decorate their home to planning day trips and holidays.

As a team, we are committed to supporting people's connections with their families and empower people to be as independent as possible, whatever that looks like, and however that makes sense to them.

We pride ourselves in continuously checking what we are doing and putting things in places or changing things, to make sure we get it right for each person."

“People told us that the home was well managed, they knew the registered manager by name and felt that they were approachable with any problems and staff were familiar with people's needs, personal circumstances, goals and family relationships.”
